

MAICO Audiometer MA 27

Air conduction audiometer for basic screening

Easy to Transport

The rigid, yet lightweight case with built-in handle and storage compartment not only protects the audiometer, but also allows you to pick-up-and-go in a hurry. Ample storage holds headphones and other accessories.

Carefully Engineered for Accuracy

Because it is portable, the MA 27 has been engineered to be tough and reliable. Take the MA 27 everywhere with confidence. Large fingertip control knobs make adjusting frequency and hearing levels easy and comfortable!

Full Range of Test Options

The MA 27 offers a full range of testing opportunities. Frequencies range from 125 Hz to 8000 Hz and signal intensities run from $-10 \text{ dB}_{\text{HL}}$ to $100 \text{ dB}_{\text{HL}}$. Sinus and warble tone (pulsed and continuous) make it complete.

Features at a glance

- Air Conduction with 11 frequencies from 125 to 8000 Hz
- Customize the frequencies to your own needs
- Eco-friendly operation with a medically approved external power supply
- Pure, pulse, warble tones

MA 27e – Upgrade Option

- Automated Hughson-Westlake
- Patient Database Software

Technical Data
